WLU censures grad student for lesson that uses TVO clip — Nov. 15
Bravo to Mark Mercer, president of the Society for Academic Freedom and Scholarship, and to Dave Haskell, professor of religion and culture at Wilfrid Laurier University, for their support of Lindsay Shepherd, who was censured by the dragons of political correctness. Are all the other professors at Laurier following the same cult? Where are the champions of the true role of universities? I totally agree with Haskell who states that the function of a university is to teach students how to think, not what to think.
